

On Boost – September 2004

What a summer! The month of August was really a blur with so much going on. My thanks go to Goodyear for their great hospitality at the picnic and for the blimp rides that were raffled off at the event. Our pontoon boat trip was cancelled at the last minute due to a nasty storm that blew through, but we still held a picnic at Dusty's Landing that night and the board made the decision to donate what we would have spent on the boat rentals to the Akron/Canton Food Bank along with the items that members brought to the event.

The autocross season is coming to a close, with only one points event left on the calendar. It's been a great season so far, with very high attendance numbers and some great competition. We've seen mostly EBR members, but have also seen some Northern Ohio Region members doing quite well too. Currently, the novices and ladies are still battling it out for the season championship, while the C and D classes still have some tight battles for 2nd and 3rd place.

As school starts and the Porsches get used less, EBR will still be very active. On top of the regularly scheduled autocross, we will be having an October charity autocross. We're also working on a wine tasting and at least one more dinner drive. We're also looking into a tech session for October. We need some input as to what topics to cover though, so please login to the EBR message board and let us know what you would like to see or do. Until then, stay on the boost!
